

Dr Peter Gray

MBBS, FRACS, FAOrthA, and MHA (UNSW)

Peter Gray is an Orthopaedic Surgeon specialising in Child and Adult injuries concerning hips and knees. Dr Gray's qualifications include MBBS, FRACS, FAOrthA, and MHA (UNSW).

Following his specialist Orthopaedic training, Dr Gray undertook Fellowships in Hip and Knee Arthroplasty Surgery, Arthroscopic and soft tissue Knee Reconstructive Surgery, and Paediatric Orthopaedic Surgery. Over the next 30 years his principal area of practice involved the operative and non operative management of disorders of the hip and knee.

In addition, Dr Gray has had appointments at Public Hospitals (Ryde and The Children's Hospital) and Private Hospitals (Norwest and Sydney Adventist) with Emergency Departments that required an on call Trauma commitment mainly dealing with pelvic and lower limb injuries.
